Cloud-Native DevOps Engineer

WORK EXPERIENCE

DevOps Engineer

Virtual Service Operations, Remote

July 2021 - Present

- Maintained over 15 production and non-production Kubernetes clusters and flagship FogLifter® application deployments simultaneously with patching and upgrades to ensure seamless delivery with zero downtime.
- Streamlined FogLifter® development lifecycle with GitHub Actions CI/CD pipelines, including automated testing, building, deployment, and release for 10+ containerized microservices.
- Standardized and automated platform bootstrapping to rapidly create production-grade Kubernetes clusters via Ansible, and deployed/supported FogLifter® application deployments on these clusters by developing Helm charts and deploying them with Argo CD in production for enterprise customers.
- Implemented Terraform IaC automation to provision and manage Financial Services compliant IBM Cloud ROKS environments with cross-region management clusters and regional workload clusters.
- Deployed and managed a digital asset management application in several production and non-production IBM Cloud ROKS environments using Argo CD GitOps and Tekton pipelines, along with monitoring and logging stacks.

DevOps Intern

Virtual Service Operations, Remote

May 2021 - July 2021

- Designed and implemented interactive voice response solution for VSO using Amazon Connect, modernizing VSO's 1-800 number
- Automated build process for Connect instances using AWS Python SDK, opening new business opportunities for managed services
- Implemented Voicemail solution for Connect using other AWS services (e.g. Lambda)
- Designed a chatbot for Connect instance using Amazon Lex
- Created MVP1 for automated cloud security solution using Cloud Custodian
- Implemented secure EC2 based Cloud Custodian deployment via Python SDK

Theatre Manager

Holiday Auto Theatre, Hamilton, OH

June 2016 - August 2020

- Supervised and managed a team of employees during operation hours
- Provided excellent customer service during operation
- Maintained clean workplace
- Managed inventory
- Ensured safety and security of guests and employees
- Handled money deposits during closing
- Opened and closed theatre before and after operation hours
